

Departures within Greece
(from the mainland to the islands, from island to island, from the islands to the mainland)

We wish to inform you that according to the Government Gazette, regarding the “Extraordinary measures to protect the public health from the risk of further spread of COVID-19, all ferry trips (from mainland to the islands and other mainland ports, between the islands as well as from the islands to the mainland) are allowed if passengers:

- Have completed the COVID-19 vaccination, at least (14) days before the ferry trip and carry a vaccination certificate or
- Have a negative molecular test (PCR) for COVID-19 by taking an oral or nasopharyngeal smear within the last seventy-two (72) hours before the scheduled departure time or a negative antigen (rapid test) for COVID-19 within forty-eight (48) hours before the scheduled departure time. The negative molecular PCR test and the negative antigen rapid test diagnoses are proven by the presentation of a relevant certificate, or
- Show a certificate of illness, issued thirty (30) days after the first positive test and lasting for one hundred eighty (180) days after it, or
- Show an EU vaccination certificate (digital COVID certificate) and/or a third countries' vaccination certificate.

From the above obligation are excluded:

- Minors up to three (3) years old
- Minors from four (4) to eleven (17) years old, may travel with a negative weekly self-diagnosis test (Self-test) within twenty-four (24) hours before the scheduled departure time

All passengers must present all above mentioned necessary documents, either in electronic form through the website <https://sea.travel.gov.gr/#/> or in printed form, to the Chief Purser on board during the embarkation procedure and before the vessel's departure.
